Dear Mr. Broadbent:

This is to advise you that the Bay Area Air Quality Management District is proposing a minor revision to the Major Facility Review Permit for Strongwell (Facility Number A2918) and is submitting the permit to EPA for review.

The following revisions have been made to the permit:

- Increase in styrene resin solution throughput at mixing and casting operations, S5.
- Increase in aggregate throughput at the aggregate storage silos, S13, S14, and S15.
- Permit to Operate a new baghouse, A4.

In addition, the permit has been revised to reflect the changes to the Manual of Procedures, Volume 2, Part 3, Major Facility Review, and recent changes to the standard parts of the permit.

All changes are clearly shown in strikeout/underline format.

The District will issue the permit after the EPA 45-day review period is over and after addressing any EPA comments.

Copies of the proposed revisions to the Major Facility Review Permit and the permit evaluation are enclosed for your information. If you have any questions on this matter, please call **Steve Hill, Air Quality Engineering Manager, at (415) 749-4673.**

Very truly yours,

Ellen Garvey
Executive Officer/
Air Pollution Control Officer
